

A place so beautiful

...Our team didn't want to come back

....from ticket books to a modern Automatic Fare Collection System

UGU Transport serves the community of Port Shepstone, situated on the south coast of Kwa-Zulu Natal. Blessed with beautiful warm beaches, our implementation team wished they could stay a little longer.

The Challenge

The ticketing system at UGU Transport involved a ticket book and pen.

Loading the bus took a long time, since the driver wrote the fare receipt, which meant huge paper trails making it difficult to reconcile.

The Solution

eBus Supplies was awarded the task to install and implement a modern Automatic Fare Collection and Revenue System.

Wayfarer TGX150

The Result

Increased revenue, increased bottom-line. We got rid of the paper trail.

The revenue collected doubled the first day the system turned-on.

Drivers were grateful they didn't have to manually write out tickets anymore.

After a month, the people of Port Shepstone saw the benefit and welcomed a fare increase.

Seamless Implementation

Without interfering with their regular operations, eBus Supplies installed and implemented the Parkeon Wayfarer fare collection system.

Having years of experience in other brands of bus ticket systems, Mr Dan Cloete, Chief Executive Officer of UGU Transport commented specifically on the user friendly-ness, and robustness of the Wayfarer system.
